

BAA (Buy America Act) & TAA (Trade Agreements Act)

To Whom It May Concern:

All of Peachtree products (except the C4 cylinders) are compliant with BAA and TAA requirements including 49 USC § 50101.

Peachtree luminaires are "manufactured end products" that are manufactured in the USA by Peachtree Lighting in Covington, GA. The primary steel components (downlighting pans and cylinders) are manufactured in the USA by our vendors.

Two subcomponents (the LED module and the LED driver) are not of USA origin, however they undergo substantial transformation into components during the manufacturing here in the USA. Thus, the product components are manufactured in the USA, thus qualifying as Buy America Act (BAA) and Trade Agreements Act (TAA) eligible.

Further, if it saves any paperwork, this purchase might even be exempt from the requirement under the small purchase waiver. For BAA, I believe the current threshold amount is \$150,000. For TAA, I believe it is \$193,000.

Best Regards,
